LEADVILLE.

The Most Overrated Camp Ever Known—Its Pecular and Unhealthy Climate Pneumonia and Lead Poisoning—Poor Mines and Poor Men.

Correspondence of the N. Y. Sun.

LEADVILLE, Col., May 22.—Leadville, Colorado's fair city of pneumonia, is unhealthy. Strangers just arrived at the headquarters of throat and lung diseases are astonished to see and hear everybody, almost, coughing, and with little effort raising great quantities of phlegm. The inhabitants of Leadville claim that the town is healthy. In the presence of from twelve to thirty sheeted corpses that are daily prepared for burial, they, with effrontery that is remarkable as untruthfulness begotten by speculation in carbonate pocket mines, say: "Whiskey killed them," "Exposure killed them." If among the unfortunate ones lying in their rough coffins there should be one whose hair is tinged with gray, caused by loss of money and incessant worry over the whereabouts of the pocket on the claim he has bought, the men of Leadville say: "He was old. It was time for him to die." In the middle of May, with an almost vertical sun pouring its heat into the streets of this camp, the

CONDITION OF THE ATMOSPHERE

is this: On the sidewalk exposed to the full glare of the sun the heat is uncomfortable. People walking there open their coats. They fumble with their vest buttons. One by one they are unfastened. At length, to escape the heat, they cross to the other side of the street. The change is as from Florida to Iceland. The sidewalks in the shade are slippery with ice. The air is moist and icy, having a peculiar quality that chills instantly, as a plunge into ice water does. Vest and coat are quickly buttoned, hands thrust into the pockets, shoulders elevated, and the walkers hope no harm has been done. Vain hope! Daily men meet death by simply crossing the streets of this town. Death in the form of pneumonia. The whisky does not kill them. It is the colds caught after drinking it, which in a town of moderate altitude could be easily cured, that in this camp on the carbonates result in death. If a person addicted to the use of alcoholic liquors is attacked by pneumonia, the result is

ALMOST ALWAYS FATAL.

Another disease that is gradually coming into prominence in this town is lead poisoning, commonly called "leading." Men who are working about the smelters, especially those who charge the furnaces with ores, are most liable to this direful disease. Men who are "leaded" become partially paralyzed, and in many cases insane. There is no escape for the man who pursues the work of feeding a furnace. It is question of time only when he will be ready for the hospital and probably the undertaker. Why will men accept work of this health and life-destroying character? They are hungry. The miners tell me that some of

THE MINES ARE POISONOUS,

men working in them being subject to arsenical poisoning. This camp, this famous camp, is the most overated the world ever saw. The frauds of Frazier River, of Peace River, of Kootenay River, of Sun River, are nothing in comparison. In placer mines (the only mining the poor man should engage in) money is plentiful, and the miners, though rough, are bound together sympathetically. They do not allow their comrades to die of starvation or disease, unattended, like brutes. In this camp on the carbonates, the men, ground down by want, by cold, by hunger, by the poverty of the mines, are hard and cold toward one another. With indifference they see their comrades die. They are too poor to help them if they wished to.

THE POPULATION OF LEADVILLE

is about 45,000. Most of these men are young. They came to this camp to work in the hope of bettering their condition. The streets are crowded with men in search of work. Daily great gangs of men wander from mine to mine, from shelter to shelter, asking for employment. None is to be had. The average American is of no use in a mine. Daily they return to town, hungry and discouraged, and the little money they may have is apt to be expended for mean whiskey or at the gambling tables. So numerous are the unemployed that the mine managers are talking of reducing the wages of the miners. Of the 45,000 men here, about 10,000 are employed in the mines; 35,000 men are doing nothing to earn a living. Of course, there are very many shopkeepers, boarding-house keepers, and gamblers. I do not write of them. The entire city depends for support on a few mines. A few mines only yield a profit, and that profit goes into the pockets of a few persons. The other mining companies spend money—do not make money. It is safe to state that three dollars are expended in the camp for every dollar obtained from the mines.

FOR PRESIDENT,

JAMES A. GARFIELD,

OF OHIO;

FOR VICE PRESIDENT,

CHESTER A. ARTHUR,

OF NEW YORK.

EDISON'S LIGHT.

Edison maintains that his electric light is not a failure. It is conceded that he has accomplished the task of sub-dividing the electric light, that is, getting a great number of small lights, independent of each other, on one circuit or from one current of electricity. The inventor avers that his electric light is cheaper than gas, but of this he has not yet thoroughly convinced the capitalists who hold the stock in the Edison Light Company. His experiments are still in progress. The steamer Columbia that sailed from New York a few weeks ago for California, was completely lighted by Mr. Edison's lamps. A lamp of an intensity of about five-candle power was used for the state-rooms. The Columbia is to run between San Francisco and the Columbia river.

THE STATE FAIR.

The Trustees of the State Agricultural Society have wisely decided to hold the Fair this year a month earlier than usual. There should be many good horses here this fall, as liberal prizes are offered. A grand review of the State Militia will be one of the attractions of the Fair week. Gov. Kinkead proposes to call them out for a general review. The Society offer a liberal prize for the best drilled company. The Fair of this year will be better than any ever held in the State, and should draw thousands of people to Reno. Our citizens should do all in their power to make it a grand success.

EDITORIAL NOTES.

The real or pretended withdrawal of S. J. Tilden makes the work of the Cincinnati Convention puzzling. It is stated to-day that the New York delegation have taken him at his work and notified the Kentucky delegation that Tilden is not in the field. A telegram states that the California delegation are advised to throw Field overboard. If Tilden and Seymour have both withdrawn in earnest, the selection is not unlikely to fall on some dark horse.

Word comes to-day that President Hayes is to visit the Pacific coast in time to see the California State Fair. As the Nevada State Fair will be held here near the same date, Gov. Kinkead would do well to invite the President to attend it. He would doubtless be pleased to do so, as his fondness for agricultural fairs is well known.

The N. Y. *Herald* of the 18th inst. gives the following as the apparent first ballot at Cincinnati: Whole number of delegates 738; necessary to a choice 492; Tilden 184; Bayard 120; Seymour 85; Hancock 66; Thurman 65; Field 60; Hendricks 39; Morrison 25; Randolph 18; English 3; scattering 12; doubtful 39.

Between now and November the public will be told all about Garfield, even to the number of his shoes, and whether he takes sugar in his coffee or not. Already the announcement is made that he plays but an indifferent game of billiards.

As Charles Bell of Pioche was sighting a gun at a bird, his right eye became suddenly blind. He then tried the other eye, and finding that all right, fired and brought down his bird. He still has one blind eye.

There was a sort of practical poetry about that Kentucky girl who wanted tobacco planted on her grave, so that when her bereaved lovers came to drop a tear, they could find consolation in a chew.

Just after hearing sentence of death pronounced upon him, a murderer said to a jury in a San Rafael court room the other day: "You ——— ——, I've got it in for you!"

Over a million bushels of grain were shipped from New York to Europe in twenty-four hours ending on Saturday last. Two-thirds of it was wheat.

Bob Toombs says he didn't think the Republicans had sense enough to nominate a man like Garfield, and that he will be hard to beat.

James Abram Garfield and Chester Absolom Arthur. Israel is bound to support this ticket.—Eureka *Leader*.

Paradise Valley is alive with grasshoppers.

Gen. Garfield's Marriage.

During his professorship General Garfield married Miss Lucretia Rudolph, daughter of a farmer in the neighborhood, whose acquaintance he had made while at the academy, where she was also a pupil. She was a quiet, thoughtful girl, of a singularly sweet and refined disposition, fond of study and reading, possessing a warm heart, and a mind with a capacity of steady growth. The marriage was a love affair on both sides, and has been a thoroughly happy one. Much of General Garfield's subsequent success in life may be attributed to the never-failing sympathy and intellectual companionship of his wife and the stimulus of a loving home circle. The young couple bought a neat little cottage fronting the college and began their wedded life poor and in debt, but with brave hearts.

Fatal Kisses.

In Titusville, Pa., a few days since, Mrs. Joseph Bushnell died from the effects of kissing the dead body of her father a few days before, while attending his funeral in Pittsburgh. Her father died of erysipelas, and at the time mentioned she had a sore on her lips through which her blood was poisoned. Her little daughter Ella is not expected to live from kissing her mother.

Although "Billy the bummer" had only six days unserved of his 6 months' sentence, he ran away from the Oakland jail last Friday. He was a "trusty."

They sell large quantities of it and say it supercedes all others. Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes, which give a momentary whiteness to the teeth while they corrode the enamel. REPUBLICAN PLATFORM.

Following is the text of the resolutions adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent bonds sold at 88, to that where four per cent bonds are eagerly sought at a premium. Under its administration railways have increased from 21,000 miles in 1860 to more than 82,000 miles in 1879. Our foreign trade has increased from $700,000,000 to $1,150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1860, were $264,000,000 more than our imports in 1870. Without resorting to loans it has, since the war closed, defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than $30,000,000 for soldiers' pensions. It has paid $880,000,000 of the public debt, and by refunding the balance at lower rates, has reduced the annual interest charge from nearly $151,000,000 to less than $89,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Republican party asks for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

ENUMERATION OF PRINCIPLES.

First. We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained should be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the pensions promised should be paid. That the debt so much reduced should be extinguished by the full payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second. The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by national and not by State tribunals.

Third. The work of popular education is one left to the care of the several States, but it is the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genius of any one State, but by the average genius of all.

NON-SECTARIAN SCHOOLS.

Fourth. The constitution wisely forbids Congress to make any laws respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism while each State is exposed to its particular domination. We therefore recommend that the constitution be so amended as to lay some prohibition upon the Legislature of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

Fifth. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad or other corporation. That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American birth must be secured to citizens of American adoption. That it is the duty of Congress to develop and improve our water-courses and harbors, but we insist that further subsidies to private persons or corporations must cease. That the obligations to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory. Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

THE CHINESE PLANK.

Sixth. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and its treaty-making powers, that the Republican party, regarding the unrestricted immigration of the Chinese as an evil of great magnitude, involves the exercise of the power to restrain and limit that immigration by the enactment of such just, humane and reasonable provisions as will produce the result.

Seventh. That the purity and patriotism which characterized the earlier career of Rutherford B. Hayes in peace and war, and which guided the thought of his immediate predecessor to him for a Presidential candidate, have continued to inspire him in his career as chief executive, and that history will accord to his administration the honors which are due to an efficient, just and courageous fulfillment of the public business, and will honor his interposition between the people and proposed partisan laws.

INIQUITIES OF THE DEMOCRACY.

Eighth. We charge upon the Democratic party the habitual sacrifice of justice and patriotism to a supreme and insatiable lust for office and patronage; that to obtain possession of the national and state governments and of the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrages have devised fraudulent certificates and returns; have labored to unseat lawfully elected members of Congress, to secure at all hazards the vote of the majority of States in the House of Representatives; have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons; have by methods vicious in principal and tyrannical in practice, attached partisan legislation to appropriation bills; have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war and to overcome its inestimable good results—freedom and individual equality. We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, sensible people of the United States to say whether it would not be dangerous to the best interests of our country at this time to surrender the administration of the national government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

Pirates of Penzance Troupe

JOTTINGS

—Warmest day of the season.

—The Alerts played with a scrub nine yesterday. The game was poor.

—The latest local conundrum is: "Why is the School for Girls like a sugar refinery?" Anybody can guess the answer.

—A slight break occured in the Steamboat ditch at Ghiliri creek, near Brown's, yesterday, but was stopped in time to prevent any damage.

—Needham says he buys for cash and sells for cash, and "can't be beat" on the price of furniture. Read his new advertisement.

—The excursion party from Chicago went west last night in three Pullman cars attached to the express train. There were 132 in all.

—P. C. P., C. W. Jones has been appointed Deputy Grand Patriarch, I. O. O. F. of this district, and J. C. Hannes, D. G. M. for the subordinate lodges.

—The written examination at the Seminary commenced to-day. Commencement exercises will be held on Wednesday afternoon and a musical rehearsal in the evening.

—The subject of D. Banks McKenzie's next Sunday evening lecture is: "The power of kindness and the human heart." The Dr. leaves for Salt Lake next Monday, where he will take part in the celebration of the Fourth.

—A wildcat made a raid on the chickens at the Junction House on the Surprise valley road Saturday night. Rice turned out with a shot gun and drove away the intruder. Several chickens were killed.

—The Reform Club meeting on Saturday evening had a much larger attendance than usual. The programme previously announced was carried out, and brief speeches were made by Gov. Woods, J. F. Alexander and others.

—The Phœnix cigar is supplied to the trade by Wm. Lewis & Co. of San Francisco. A box of these fine cigars has just been received at this office. No one smokes a cigar of this brand without wishing another as good might rise from its ashes.

—John Schaffer, who caused the death of Alexander Martin by striking him a blow which knocked him off the porch of the hotel at Boca, has had a hearing and been discharged. The evidence was not considered strong enough to warrant holding him over.

—The school marms of this county had a social convention at Mr. Whistler's ranch, Glendale, on Saturday. L. C. Batchelder, who takes great interest in school matters, joined the party in the evening. Mr. Ring and a number of ladies from town were also present. They had a merry meeting.

How Business Men can Save on Postage.

An exchange says "the law steps in to help the printer. By the last postal decision business men can actually make money by getting their bills and statements of accounts printed. The law now says in substance that if these are made out on paper that is printed at the head, they can be sent through the mail for one cent, the envelope being unsealed; whereas, if made out on unprinted paper they will cost three cents. Thus by patronizing the printer, two cents can be saved on every bill and statement that is sent through the mails, and that will more than pay for the cost of blanks."

Chinamen for the Bodie Railroad.

There are now 300 Chinamen grading in Churchill canyon, Lyon county, on the Carson and Colorado road. Seventy more leave Wadsworth tomorrow to join them. This week the working force will be increased by 200 Chinamen, in all, from Reno and Wadsworth. A gang of white men are working on the road from Mound House toward Dayton.

BY TELEGRAPH.

TILDEN'S WITHDRAWAL.

THE NEW YORK DELEGATION ACCEPT IT.

Talk About Taking Down Field—Gov. Stevenson Named as the Convention's Chairman—The President Coming to the Coast—Great Fires Near St. John—Californians Buying Mexican Mines.

Advice to Sink Field.

CHICAGO, June 21.—The *Times* editorially states that the delegates from California are in receipt of many telegrams from their constituents, advising them to withdraw Justice Field's name.

The Permanent Chairman.

It is believed that Gov. Stevenson of Kentucky will be made permanent Chairman of the Convention.

Hayes Coming to California.

WASHINGTON, June 21.—President Hayes says, in reference to his contemplated visit to California, that his idea is to reach Sacramento in time to attend the State Fair in September.

Investing in Mexican Mines.

SAN FRANCISCO, June 21.—California and Eastern capitalists have recently invested in mines in Sonora and Chihuahua to the value of over a million of dollars. The title deeds and descriptions of the property are now being examined by an expert in this city. No particulars of the transaction will be given to the press until absolute possession of the mine is taken.

Forest Fires in New Brunswick.

ST. JOHN, N. B.—Forest fires are doing immense damage. Many villages are threatened with destruction. Work is stopped in several places and the inhabitants are out fighting the flames.

Tilden's Withdrawal Accepted.

NEW YORK, June 21.—The New York delegation officially accepts Tilden's letter of withdrawal, notwithstanding some claimed that it was not positive, and have notified the Kentucky delegation that they are relieved from all obligations to support him. This action mystifies matters more than ever, and it is impossible to foretell the result.

District Court Notes.

The District Court was opened for a two weeks' session this morning, Judge S. D. King presiding.

The case of Bunting and Harrison vs. the C. P. R. R. company took up this morning. Motion for a new trial was argued by Gen. Barnes for defendants and Judge Haydon for plaintiffs. No decision has yet been rendered.

FIRES AT WASHOE.

The Extent of the Damage—Many Narrow Escapes from Death.

Editor Gazette:—The wind of yesterday was the severest experienced in Washoe valley for several years, causing much damage to fruit trees, fences, etc. Forty cords of wood were burned on the mountains at the head of Little valley. The Thomas canyon fire burned over a large tract but nothing of value was destroyed. Above Washoe, on the eastern and northeastern slope of Mt. Rose, another fire burned over an area five miles long by three miles in width. Marker had sixty men at work and by the strenuous efforts of all hands, the flume was saved. While looking for one of his men, supposed to be in the flames, he had his eyebrows scorched and clothes badly burned, and at the same time his horse lost his mane and the hair on his head and ears. The flume foreman, Wm. Foote, narrowly escaped losing his life by becoming hemmed in by fire, and had about made up his mind to jump into the flume as a last chance, when the wind changed, showing him a way to escape. N. Beaune, contractor, came very near being killed by a falling tree, which just missed his horse and himself. Marker roused out sixteen men from one cabin, and set them to work on the flume. While they were engaged in this work, an immense fir tree was blown directly across the cabin, demolishing it and contents. The tree measured six feet in diameter and was 220 feet in length. By the way it fell on their beds, the boys say that at least ten of the sixteen would have been killed outright. They were thankful to their Marker for sending them to work on the fire.

J. N. BARSTOW.

Fresh Trouble Between the Piutes and Washoes.

The Indian war cloud that seemed about to lift has darkened again. On Saturday a Piute squaw who was gathering wild onions on Cedar hill, near the Comstock, was assaulted by a Washoe Indian. He attempted to kill her with a pistol, but was driven off by a white man and did not shoot. While struggling with the woman the Washoe kicked her so violently in the stomach that her death is likely to result. The Piutes are very indignant over the outrage, and Capt. Sam has gone to Carson to demand satisfaction from Capt. Joe of the Washoe tribe.

REMARKS AND CONDITIONS.

Nominations in stakes must be made to the Secretary on or before the first day of August, 1880. Entries for the purses must be made: on Monday's races on the Saturday preceding; for Wednesday's races on Monday, and for Friday's races on Wednesday, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing, which they will start, the day before the race, at 6 P. M. Horses entered in purses can only be drawn by the consent of the Judges.

The rules of the Pacific Blood Horse Association will govern running races.

All horses entering for State purses must be owned and kept in Nevada and California east of the Sierra Nevada, for six months prior to day of race.

Entries to all trotting races will close August 15th with the Secretary.

Five or more to enter, and three of more to start in all races for purses.

National Trotting Association rules to govern trotting races. Pacific Coast Blood Horse Association rules to govern running races, except as above.

Each day's races will commence promptly at 1 o'clock P. M.

All entries must be directed to J. M. Flannagan, Secretary of the Society.

PREMIUMS FOR EQUESTRIANSHIP.

The Society offers four premiums, which will consist of the Society's Silver Plate, valued respectively at $100, $70, $40, and $20.

ISABEL MANN TAYLOR MCPHERSON.

The Lady Who is Walking from Omaha To San Francisco.

About five o'clock on Saturday evening a very singular figure tramped into Reno from the east. It wore a common brown dress with a waist extending a little below the belt, a heavy, woolen cape lined with a light material, a calico sun-bonnet much the worse for wear, a pair of heavy shoes and white ribbed woolen stockings. The face was that of a woman of forty, much sunburned but more red than browned from exposure. The form was slight but wiry, the feet large, the face slim, the nose very sharp and the eyes very blue. A GAZETTE reporter who tried to interview the traveller found the tongue as sharp as the nose. Mrs. McPherson said she did not want a lot of stuff in the papers about her. The Truckee *Republican* will please take notice. She stopped a few moments in Reno and then resumed her journey. A GAZETTE reporter whom she had not seen jumped into a buggy and, following the road, overtook her about a mile west of town. He asked her if she would like to ride and she said: "No sir, I prefer to walk." She answered questions very readily, told her name, age, etc. She is not walking for a wager, but because she wants to go to California, and prefers to walk rather than to ride.

SHE LEFT OMAHA

10 weeks ago last Thursday, on April 8th, and Wadsworth at 2 o'clock Friday. She is Scotch, a widow, and has lived at Omaha for some time. When she gets to San Francisco, which she expects to do inside of two weeks, she is going to take a basketful of needles, pins, thread, and such things, and peddle, going all over the State, visiting Yosemite, Los Angeles, and all points of interest. She seemed to be apprehensive of the snow sheds, and asked if she could walk around them. Being told that she could not, she said she would take the cars from Truckee to Blue Canyon, and then go afoot again. She has met with good treatment all the way. She puts up at section houses or boarding houses at night, and does not camp out as some of the railroad men have reported. She carries a sack on her shoulder which seemed to contain articles of food and probably some clothing, but it could not hold much. The woman seemed perfectly sane, but sensitive and irritable. She resents curiosity, and seems very much opposed to being noticed in the papers.

An Official Communication on the Washoe-Piute Imbroglio.

WADSWORTH, June 20, 1880.

Editor Gazette:—I notice your article in your issue of the 17th inst., and would say this, on the part of Winnemucca and myself, there is no quarrel with the Washoes. We visited their fandango as invited guests, and took no part in their drunken row, and think the parties who sold the whiskey that the Washoes got drunk on, ought to be punished by law. We would say that no threats of Capt. Jim will deter us from their country; we propose to go and come as we please, and ask the Washoes no difference. We have done no wrong, and have no apologies to make.

CAPT. DAVE, Chief Piute.

The New Reno and Oregon Road.

The Lassen *Advocate* of Saturday says the northern road from Reno via Honey Lake valley to Oregon is being energetically pressed forward. Capt. Merrill left for Alturas last Monday in company with Mr. Sturtevant for the purpose of starting several gangs of men at work on that end. One of the bridges over Willow creek is nearly finished, being now passable, and the other will be completed in a few days. It is intended if possible to have the road in a condition for travel by the 10th of July. As soon as the second bridge is finished work will be commenced at this end of the road, and the force employed here will advance to meet the men coming south. Several buggies and light wagons have passed over the line of the road this season, the trip being one easily made by vehicles of light draft.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
